LARGE SQUARE BALER TWINE

PREMIUM Extra High Density Large Square Baler Twine

COTESIONE and **COTESIONE+** were developed for the new generation of high-speed, high-density balers working under extreme conditions of high temperatures and low air humidity. CotesiOne and CotesiOne+ can run all day, allowing the professional hay producer to take full advantage of the superior performance of their balers.

Unmatched knot stability and grip | UV protected to 220 kilo Langley | Easy feed and soft on knotters | For new generation high density balers | Improved softness as a result of new fibrillation techniques | Consistent performance

Application	Code	Brand	Colour	Length/spool	Spool Weight	Spools/Pack	Knot resistance	Packs/Pallet
HD-X Large Square	1100008796	CotesiOne HD	Green	980m	10kg	1	265kgf	56/112
HD-X Large Square	1100009304	CotesiOne+	Green	930m	10kg	1	285kgf	56/112

Pope Bulldog® baler twines represent years of development and applied know-how. All Pope Bulldog twines are formulated with high quality UV stabilisers to meet Australia's harsh conditions.

Pope Bulldog® Large Square Blue Baler Twine

Enhanced fibrillation during manufacturing and a spool length of 1220m makes Bulldog Blue Large Square the ideal choice for contractors and hay producers looking for consistent knot performance and long running spools.

**Excellent knot performance | UV stabilised | Long running | Consistent performance
Trouble-free spooling | Enhanced fibrillation for better knot resistance**

Pope Bulldog® High Density Large Square Baler Twine

Pope Bulldog HD Gold large square baler twine was developed for high density balers. It is the ideal choice for hay producers looking to increase bale density to optimise hay transport efficiencies. With outstanding knot performance and manageable spool weights, Bulldog HD Gold won't let you down.

**Excellent tensile strength and outstanding knot performance | UV stabilised
Consistent performance | Soft, low friction characteristics | Enhanced fibrillation for better knot resistance | Free running**

NEW POPE White Tiger™ and Blue Tiger™ HD Baler Twines combine superior value with outstanding performance to deliver superior efficiency gains to professional hay producers. The Pope Tiger range can be used with all high density balers.

Superior knot performance | UV stabilised | Consistent performance | White or Blue

NEW Harvest™ Blue/White HD Big Square Baler Twine's distinct dual colour adds a new dimension to Pope's range of high density baler twines. With consistent performance and price efficiency, the Harvest brand represents great value for money.

Strong knot performance | UV stabilised | Free spooling | Dual colour

Application	Code	Brand	Colour	Length/Spool	Spool Weight	Spools/Pack	Knot Resistance	Packs/Pallet
Large Square	1100006269	Pope Bulldog® Large Square Blue	Blue	1220m	9.9kg	2	205kgf	56/40

SMALL SQUARE BALER TWINE

Developed from years of in-field testing, Bulldog standard square baler twine is formulated with the highest quality raw materials available, to give consistent performance bale after bale.

Bulldog Blue Standard Square Twine is available in two convenient pack sizes.

Bulldog Blue Standard Square Twine Features:

Knot stability and grip | UV protected | Easy feed and soft on knotters | Bright blue

ROUND BALER TWINE

Bulldog Big Roll Baler Twine is available in two convenient pack sizes.

Bulldog Big Roll Baler Twine Features:

Perfect spooling | Knot stability and grip | UV protected | Easy feed and soft on knotters | Bright blue

Application	Code	Brand	Colour	Length/spool	Spool Weight	Spools/Pack	Knot resistance	Packs/Pallet
Small Square	1100006270	Pope Bulldog® Standard Square	Blue	1500m	4.7kg	2	75kgf	60
Small Square	1100006271	Pope Bulldog® Standard Square	Blue	2500m	7.7kg	2	75kgf	40
Round Bale	1100006273	Pope Bulldog® Big Roll	Blue	4000m	4.4kg	2	50kgf	60
Round Bale	1100006268	Pope Bulldog® Big Roll	Blue	6000m	6.6kg	2	50kgf	50

NET WRAP

BALE NETWRAP

Meganet is manufactured with quality raw materials providing maximum tensile strength, high resistance to tearing and maximum protection against UV radiation.

Meganet is the best solution for perfect baling and is recognised by farmers and contractors worldwide for its reliable performance, even under the harshest conditions. As a premium bale netwrap, Meganet provides consistent and uniform bale coverage even during fast baling. It is suitable for all crops (straw, silage, corn, pasture and cereal hay) and works under all weather conditions.

Your best choice for round baling:

Unique extrusion and knitting technology | Strict quality control procedures according to international certifications and industry standards | Compatible with all popular balers | High breaking strength to cope with the heaviest of bales
Maximum bale coverage on all type of crops | Unique identification code on every roll | UV stabilised and antistatic treated
DLG SIGNUM tested and approved | End-of-roll warning | Pallet cradles for easy storage

Does your Netwrap carry the Signum Test DLG approval stamp?

Code	Brand	Colour	Width/Roll	Length/Roll	Rolls/Pallet
1100001993	Meganet	Gold	1.30m	3000m	28
1100000992	Meganet	Gold	1.23m	3000m	28
1100005575	Meganet	Gold	1.23m	3600m	28

SILAGE FILM

SUNFILM™ Silage film is our premium quality film. Manufactured in the USA and distributed in Australia by Pope Packaging, SunFilm is available in light green and is formulated for use on all wrapping machines. SunFilm is a high performance multi-layered silage film formulated to seal in the nutrient-rich goodness of silage while keeping out harsh conditions. SunFilm is the perfect solution for silage producers seeking trouble-free quality film. SunFilm's optimal level of tackiness and pin-hole free formulation provides an excellent seal ensuring an oxygen-free (anaerobic) environment for perfect silage fermentation. Sunfilm is UV stabilised making it ideal for use in Australian conditions.

SunFilm™ Silage Wrap Features:

**Reflective UV properties | Superior strength and tack | High oxygen barrier properties | Proprietary resin formula
High opacity film | 75% pre-stretch**

SunFilm™ Silage Wrap Benefits:

- Helps maintain feed nutrition values
- Tighter wrapped bales
- Great barrier protection
- Resistant to dust, water and climate conditions
- Excellent bale protection
- Puncture and tear resistant
- Withstands the rigors of large, individual square, and round bales
- Helps improve productivity due to reduced film breakage
- Wrap film protected during shipping by carton, design, and sleeve

SUNFILM Silage Film

HARVEST Silage Film

BULLDOG Silage Film

Code	Brand	Colour	Roll Length (m)	Roll width (mm)	Thickness (µm)	Core material	Rolls/Pallet
1100009181	SUNFILM SILAGE FILM	Green	1500	750	25	Plastic	24
1100006296	HARVEST Silage Film	Green	1500	750	25	Cardboard	46

* SUNFILM™ is a trademark of Berry Global

POPE HARVEST™ Silage film is formulated to work under Australian conditions and delivers consistent performance and price efficiency. This versatile silage film is designed to be used on all wrapping machines. It has the right level of tackiness and elasticity to produce great silage bales even under extreme conditions.

Pope Harvest™ Silage Film Features:

70% stretch | UV stabilised | Cardboard core | Light green

POPE BULLDOG™ Silage Film is our most price efficient wrap. Tried and true, Bulldog film is the economic choice and is designed for use on all wrapping machines. It is UV stabilised and has a good level of tackiness and elasticity.

Pope BULLDOG™ Silage Film Features:

70% stretch | UV stabilised | Plastic core | Light green
