PopePinch woven polypropylene pinch bottom bags

PopePinch woven polypropylene (WPP) pinch bottom bags are designed for dry bulk goods such as dry pet food, feedstuff, seed, and fertiliser. With their attractive appearance and superior strength to weight ratio, PopePinch bags are the best choice for those products where bag strength and superior brand presentation are a must.

 **SUPERIOR
PRESENTATION**

 **LIGHTER**

 **STRONGER**

 **LOW
ENVIRO-FOOTPRINT**

PopePinch bags are made of high strength WPP tape that has been combined with a printed biaxially oriented polypropylene (BOPP). The final product is a high strength lightweight bag with superior tear & puncture resistance and first-class appearance.

PopePinch delivers many advantages over other forms of packaging including:

- Superiour presentation with block bottom and gusseted sides
- Woven polypropylene with a BOPP film construction for improved strength and reduced raw material use
- Strong pinch bottom design for improved handling and less risk of breakage
- Easy open feature
- Suitable for automatic filling systems
- 100% recyclable
- Hi-res 10 colour printing for outstanding product presentation and brand recognition

PopePinch bags are perfect for retail presentation.

The use of BOPP film and Hi-res 10 colour printing of the entire bag, including the bottom, allows brands to be displayed even when the product is presented on a transport pallet. Furthermore, the BOPP film is reverse printed ensuring it is protected against scratches and abrasions during handling, delivering a lasting eye-catching appearance.

The pinch bottom design prevents leaks and moisture penetration.

The pinch bottom closure is glued and seals better than a sewn seam. Also the BOPP film provides a sound moisture barrier, removing the need for a polyethylene inner liner.

PopePinch bags can be used on existing open mouth filling lines and pinch bag closing lines. Modified regular pinch bag closing lines are perfectly suitable.

 **100% RECYCLABLE** | PopePinch bags are made of polypropylene and are 100% recyclable.

Suitable for a wide range of products

 **STOCK FEED**

 **POTATOES**

 **GRAIN**

 **RICE**

 **PET FOOD**

Plus much more

Technical Data

Bag width	250 - 480mm (10 - 19")	Temperature required to seal bag 180°C
Bag length	500 - 1070mm (20 - 42")	10 colour printing
Gusset width	50 - 200mm (2 - 8")	

With Pope Packaging as your preferred packaging supplier you have a winning partnership.

- **Local technical support** - With more than 60 years in the packaging industry, Pope Packaging has the know-how to support your needs and meet your requirements.
- **Global network** - Extensive long-term trading relationships with high quality supply partners to ensure security of supply and access to the latest packaging innovations.
- **On-site optimisation** - Versatile, agile and with the skills to optimise your operation to ensure your packaging process is trouble-free.
- **Cost competitive** - Pope Packaging can handle all your local logistic needs.
- **Local logistic support** - With warehousing in WA, SA, Vic, Qld and NSW, NZ North and South Islands, local support is never far away.
- **Local service** - Bag specifications can be set to meet your needs.

About Us

Family owned, Pope Packaging has grown to be Australia's only local manufacturer and supplier of textiles, papersacks and flexible packaging products with a proven international network of quality suppliers.

With 800 dedicated employees round the world, 200 based across Australia, Pope's truly international presence and reputation for quality products and expertise is reinforced through its extensive operational and distribution network in Australia, combined with offshore operations based in USA, New Zealand and Sri Lanka.

We are constantly investing in new technology and product development and are passionately dedicated to long-term partnerships with our customers by providing outstanding customer service and expert advice.
